

SEDRIC GERVE KOUAM

Full-Stack Developer | Data & Human-AI Interaction Specialist

Douala, Cameroon | (+237) 651382384 | kouamsedrick@gmail.com

Portfolio: sedric-kouam.com | GitHub: github.com/sedric-gerve | LinkedIn: linkedin.com/in/sedric-kouam

PROFESSIONAL SUMMARY

Creative and rigorous Full-Stack Developer with solid expertise in complex application design and a strong mathematical background. Specialized in data engineering and Artificial Intelligence integration, I combine programming logic, data quality management, and prompt engineering to optimize Large Language Model (LLM) performance. Experienced in technical supervision and Human-in-the-Loop (HITL) approaches, I possess the necessary judgment to guide hybrid workflows toward high-precision outcomes.

KEY AI & DATA SKILLS

- **Prompt Engineering & Fine-Tuning:** Designing and refining complex prompts for LLMs, model evaluation, and fine-tuning techniques.
- **Data Labeling & Annotation:** Data labeling and annotation management tailored for AI model training and development.
- **Quality Management & HITL QA:** Human-in-the-Loop supervision, data quality assessment, and validation of AI-driven systems.
- **Analytical Rigor:** Scientific analysis and fact-checking derived from an academic foundation in mathematics to validate complex datasets.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer (Freelance) 2026 - Present

- Design and develop modern applications incorporating Artificial Intelligence modules and automation features.
- Integrated the Anthropic Claude API into a production web application to power an AI customer support chatbot, using REST API-based function calling for order lookup and customer history retrieval; deployment on Railway planned upon client sign-off.
- Manage the full software development lifecycle: architecture, coding, debugging, and rigorous testing.
- Optimize user experiences through AI-driven interfaces and structured data pipelines.

Production Director | KPRINT Printing 2024 - 2025

- Fully supervised the production process, ensuring compliance with quality, cost, and deadline objectives.
- Coordinated cross-functional teams and optimized operational workflows.

Full-Stack Web Developer | Klocalhost Digital 2020 - 2024

- Handled corrective maintenance and resolved complex technical anomalies in large-scale web systems.
- Executed unit and integration tests to guarantee code stability, security, and reliability.
- Provided technical leadership, conducted code reviews, and mentored a team of developers.

EDUCATION

Bachelor's Degree in Mathematics and Computer Science | University of Douala | 2018 - 2021

Associate Degree (DEUG) in Computer Science | University of Douala | 2017

AI CERTIFICATIONS

Introduction to Generative AI for Software Development | DeepLearning.AI (Coursera) | July 2026

LLM Fine-Tuning, Prompt Engineering & Model Evaluation | Datalens (CipherSense) | June 2026

Human-in-the-Loop (HITL) QA & Data Quality Management | Datalens (CipherSense) | May 2026

Essentials of Data Labelling & Annotation for AI Development | Datalens (CipherSense) | May 2026

TECHNICAL SKILLS & LANGUAGES

Web Stack: PHP (Laravel), Node.js, Vanilla JS, HTML5, CSS3, Livewire, Tailwind CSS, Alpine.js, Vue.js, MySQL, REST APIs.

AI & Dev Tools: Git/GitHub, LLM API Integration (Anthropic Claude), VS Code, Label Studio, Docker.

Deployment & Hosting: Vercel, AWS, Render, Heroku, Railway.

French: Native speaker | Certified TCF Québec: Listening/Reading (B2), Writing (B2), Speaking (C1).

English: Professional proficiency | Certified IELTS General Training (Overall Band: 5.0 - B1).

Interests: Video games, Hiking.
